

The 3 R'S Horsemanship Clinic: OVERVIEW

- Renew, Rebuild & Re-Inspire -

This new intensive all levels course brings together the first three courses of Jonathan's program. Whether you've taken just one previous clinic with Jonathan or you are an ongoing student looking to advance, this clinic will develop your flexibility moving through the 6 C's and show how to bring together the complex orchestra of the training scale. Becoming a horseman is about feel and fluid transitions from one moment to the next. Learn the benefits of having a program while maintaining the freedom & imagination to move with what is needed. Also, learn to engage your imagination in order to put the pieces together in way that best helps your horse.

"Sometimes it's hard to tell whether you're working on the start or the finish." Ronnie Willis

Course Goals:

- In depth morning theory sessions focusing on advancing your feel and ability to read & respond to the horse
- Review and study with Jonathan the timeless concept of developing Feel & Timing
- Recognize how leadership and partnership work together to create a calm willing relationship with your horse.
- Learn about mixing together and understanding active neutral in the first half of the Field Training Scale
- Review proper sends, various lateral exercises for softening horse & rider (such as the "Samari Circle") and awareness of our position (coaching on where to be and where not to be).
- Afternoon riding sessions that focus on refining your equitation and fine tuning your seat and rein aids
- Become a more precise & balanced rider through a review of how your seat, leg and hand position can influence flexion
- Develop manoeuvres like: shoulder-in, lead departures, correct circles, and the "Comfy Canter"

**Please note: There's always a slight difference in the dynamic of each group of people and horses. Some lessons may be focused on more than others, including some not mentioned here. If one of these goals is important to you, please mention so at the beginning of the clinic.*
