

COURSE 1: Leadership & Partnership

June 17-19th, 2021 ~ Blackfalds, Alberta

In any discipline, to be great you must first master the fundamentals and this course is full of them. By understanding the nature of the horse you'll learn how to establish an effective communication on the ground & under saddle to safely create a willing partner. By far the most important course you will take, and one to review throughout your horsemanship journey!

OVERVIEW

- An Introduction to the Jonathan Field Horsemanship Training Scale™ with Path & Speed.
- Focus on leadership and safety, both on the ground and while riding.
- Learn to read behaviour through the 6C's™ and understand the psychology of the horse.
- Learn to establish personal space on the ground and do a pre-ride check before you ride to maintain your safety.
- Build communication using the Primary Equine Language™ to get body control both on the ground & under saddle.
- Learn a canter program to build confidence in both you and your horse.

* Each clinic has a different dynamic of people and horses. Some lessons may be focused on more than others, including some not mentioned here. If one of these goals is important to you, please mention so at the beginning of the clinic.
